

## Technische datasheet Ecoline Impact

Productfoto's:

Product description:

Rubber floor mat, developed for fitness use. Product contains SBR granulate (made from recycled European car tyres), bonded through warmth with high quality PU-binder. Upper side flat with a profiled base. Protect strength equipment from damage, thermally insulate the floor, cushion falls through the use of a unique "wave" structure. The optimal working temperature of the article is from -40°C to +40°C. The mats are non-slip, resistant to noise and vibration, absorb shock and are ideal for exercise areas with weights and heavy equipment.

Dimensions:

1000x1000x20mm.

Size tolerance thickness:

+/- 8%

Size tolerance length-width:

+/- 1 %

Weight m<sup>2</sup>:

17kg. (+/- 200gr).

Weight tolerance:

- 5% / +8% (5+3 because of the use of pigments)

Behaviour to fire:

EFL-S1 NORMA PN-EN ISO 9239-1:2010; PN-EN ISO 11925-2:210

Abrasiveness:

Abrasiveness at a force of 50N (2000 cycles) - weight loss ~ 2,5%

Anti-slip properties:

Determination of the value according to DIN 51 131 standards dry and wet surface.  
Result: dry: 56, wet: 43

Environmentally:

Environmentally friendly, REACH compliant
